

To whom it may concern-

this letter is in support of allowing satellite radio to continue delivering traffic and weather information. I use this service daily in my commute and it has proven invaluable. The traffic given on AM/FM is sporadic and has proven frequently inaccurate. There should be no reason why this information should not be available to anyone anytime twenty four hours a day in 2004. I pay a monthly stipend for my satellite radio and it is not up to the NAB to decide what I can or cannot listen to. I hope the FCC will reject petition 04-160.

thanks

R. lee Steely MD
